

## WOMEN BATHERS MORE NUMEROUS

One Thousand of Both Sexes Have Learned to Swim.

### BATHING BEACH RECORD

Supt. Hudson Declares that Next Year the Season will Open Early in June.

Several important changes will be made at the municipal bathing beach next season, Dr. William B. Hudson, superintendent, announces in his annual report to the Commissioners made public yesterday.

For many years it is, that next year the pools will be opened fifteen days earlier than they were this year, that is, on June 5. To facilitate all fear at the outset, Dr. Hudson gives satisfactory assurance that the pools will be thrown open to the thousands of Washingtonians who enjoy them. He announces he has a surplus left sufficient to insure the opening at least. Perhaps Congress will in the meantime provide sufficient funds to make it really certain that the pools will be kept open next year. This season they had to be closed several days owing to lack of funds.

The reason given for opening earlier next year is that weather conditions are such that an early opening is desirable. There was a falling off in the number of bathers this year, but the pools had been open every day the figures probably would have exceeded those of last year. Totals for each year the pools have been in operation during the season are as follows: 1910, 60,298; 1911, 60,298; 1912, 60,298; 1913, 60,298. Of this year's number, 42,354 were males. The total includes 1,877 who went into the pools for colored people.

There were no casualties, but there were eleven who sustained minor injuries. Thirty-two bathers were rescued, and Dr. Hudson thinks these statistics reflect credit upon the guards. The guards responded to two calls from the river, and each time rescued a man apparently drowning.

The question of bathing suits has given the superintendent considerable to think about, and next year there may be a different attitude on this matter. He states in his report, it seemed desirable that all bathers should be furnished with suits by the District, rather than allow them to use their own. This he points out, would insure nothing but clean suits going into the pool. The bath house suits are boiled. So many patrons objected to using public suits that the superintendent soon found himself confronted with a vexing problem. This question is to receive still further consideration, he announces.

The sterilization of bathing suits with chemicals was discontinued, and a method of steam sterilization was adopted in its stead. This proved more satisfactory, it is stated.

**Increase in Women Bathers.**

Attention is directed to an increase among the women bathers and also to the large number of males and females who learned to swim this season in the pools. The records show that 700 males and 300 females caught the bug of the water. The woman guard was an experiment this year will be continued, Dr. Hudson announces, having found her services invaluable about the pools on women's days.

That the pool now used for colored bathers be increased in length from forty-five to ninety feet, and given over to the exclusive use of females, to be in operation during the regular bathing season. This would not change the present hours for women, but would care for those unable to avail themselves of the pool during the regular bathing season. In making this recommendation, provision for colored bathers had not been overlooked, but as the average number of colored bathers is but forty-two daily, they may well be taken care of in the pool now being constructed by the playgrounds.

"That the pools be opened daily from 7 a. m. to 12 m. and from 2 p. m. to 5 p. m. on Sundays from 10 a. m. to 12 m. and 2 p. m. to 5 p. m. with the following schedule of hours for sexes: Boys—Daily, except Wednesday and Sunday, from 7 a. m. to 12 m. and 2 p. m. to 5 p. m. Men—Tuesday, Thursday and Saturday from 7 until 10 a. m. and daily except Wednesday from 4:30 to 5 p. m. and Sundays from 10 a. m. to 12 m. and 2 p. m. to 5 p. m. Women—Monday and Friday from 7 to 10 a. m. and Wednesday from 7 a. m. to 12 m. and 2 p. m. to 5 p. m. and that the superintendent be authorized to make such temporary changes in hours as may be found advantageous to the proper operation of the swimming pools."

### DR. HARDIN RESUMES SERMONS.

"Forgive us our debts, as we forgive our debtors," will be the text from which Dr. Edward R. Hardin, pastor of Mount Vernon Church, will preach this morning, resuming the series of sermons begun before his departure for vacation upon the various petitions of the Lord's Prayer. Dr. Hardin has just returned from South Carolina, where his vacation was spent, and those who heard the sermons in this series before his departure will be glad to know that they are to be resumed and continued each Sunday morning until the prayer has been completed.

### GOOD CATCH OF BASS.

Bass are biting fine in the Georgetown channel east of the highway bridge. Small is the bait getting best results. James B. Raleigh, pilot of the fire-boat Firefighter, went out Friday morning in his gasoline launch Sylvia and got forty-five ones in less than four hours. Again yesterday morning he got fifteen more. They averaged in weight from one to three pounds.

### IN FAST AND PRAYER.

Wednesday, the Day of Atonement, Holy to Jews.

The Day of Atonement, the holiest day in the Jewish year, will be celebrated Wednesday in all the Hebrew churches in the city. This day, as its name implies, is given to prayer and fasting in the belief that if the contrition is sincere, their sins will be forgiven and they will begin the new year "one" with God.

On this day the Jews fast for two reasons. First, because it marks the sin of jealousy and enmity, and secondly, because hunger and weakness tell upon the conscience; they break down pride and cause men to fall repentant at the feet of God.

Although the day is one of sorrow, it terminates in gladness with the Jewish prayer, which sound the note of reconciliation with God. The Jew returns home at peace with God and ready to start the year with renewed faith and hope.

## SERBIA SAYS AUSTRIANS GET Foothold THERE

Terrific Battle Has Been Going On Southwest of Krupani in Mountain Passes for Fortnight.

### ENEMY BOMBARDS BELGRADE

Nish, Serbia, Sept. 25.—A battle, which has been in progress two weeks, is raging between Serbian and Austrian troops in the mountain passes southwest of Krupani.

That is the only place where the Austrians have been able to secure a foothold on Serbian soil, although they have been trying to launch invasions all along the Drina, Save, and Danube rivers. Both sides have suffered enormous losses and every house in Krupani has been turned into a hospital.

The government today issued an official denial of reports concerning the depressed condition of the Serbian army which are believed to have originated in Sofia.

Up to the present the Serbian and Montenegrin armies invading Bosnia (Austrian territory) have occupied the following places: Potica, Chantia, Visegrad, Rogozitza, Vlasenitsa, Srebrenitsa, and Prizna.

Although the Austrians are still bombarding Belgrade, the government announces the situation here is absolutely satisfactory. The Serbian forts are being repaired and the Austrian artillery fire, Gen. Bovitch, chief of the general staff of the famous First army, which won victories over the Turks and Bulgarians, has been wounded in the fighting at Krupani. Among those killed were two directors of the Poletica, the most influential newspaper of Serbia.

### CONGRESS IN BRIEF.

**SENATE.**

The Senate passed the Alaskan coal lands releasing bill. It already had passed the House, but was amended in the Senate and now will go to conference.

The Privileges and Elections Committee failed to take final action on the Norris resolution calling for an investigation into the Senatorial primaries in Illinois and Pennsylvania and adjourned until Wednesday.

The war tax bill was received and referred to the Finance Committee, which probably will be ready to report to the Senate and then temporarily laid aside.

Senator Townsend, of Michigan, attempted to call up a bill creating a civil war volunteer officers' retirement list. Senator Overman, of North Carolina, is opposed to the bill, moved an adjournment. This motion was voted down several times, but no quorum materialized and the Senate was forced to adjourn until tomorrow.

**HOUSE.**

A special rule for the consideration of the Jones Philippine independence bill was adopted by the House by a vote of 61 to 44. General debate on the bill will begin tomorrow.

The House also adopted a resolution authorizing the present rule to consider the radium conservation bill, which will be supplanted by the Philippine measure.

Representative Boeber, of Missouri, blocked consideration by unanimous consent of the rivers and harbors appropriation bill, as reduced by the Senate and the bill was referred to the committee.

Representative Flood introduced a resolution which has the approval of the State Department to extend the thanks of Congress to the three A. B. C. medallions, who aided in adjusting differences between the United States and Huerta. The resolution also provides for the distribution of gold medals to the medallions.

The House adjourned until noon tomorrow.
